| Andhra Pradesh, India

PROFESSIONAL SUMMARY

Ambitious AI-focused developer with a builder's mindset, passionate about crafting real-world generative AI experiences that merge technology with creativity. Designed and shipped Volt Sensei, an AI-powered JEE learning platform featuring dynamic quizzes, XP gamification, and interactive 3D educational models. Currently building an AI Fitness Transformation App and a multiplayer social strategy game focused on immersive user experiences.

PROJECTS

Volt Sensei — AI-Powered JEE Learning Platform | Launched · 2026

Stack: React.js · Firebase · Tailwind CSS · Generative AI

- Engineered and deployed Volt Sensei, an AI-powered JEE learning platform built using React, Firebase, Tailwind CSS, and Generative AI.
- Architected AI-generated quiz systems with gamified XP progression and real-time performance feedback.
- Built immersive 3D educational models and formula visualization modules for Physics and Chemistry learning.
- Implemented Firebase Authentication and Firestore for secure real-time user data synchronization.

AI Fitness Transformation App | In Development · 2026

Stack: React Native / React · Firebase · Generative AI

- Designing a personalized AI fitness companion with body transformation roadmaps and milestone tracking.
- Building gamified discipline mechanics and streak systems to improve long-term user consistency.

King's Guess — Multiplayer Social Strategy Game | In Development · 2026

Stack: React.js · Firebase Realtime DB · WebSockets

- Developing a multiplayer social strategy game with unique role-swapping mechanics and friends-only rooms.
- Building real-time room synchronization systems and expressive cartoon-inspired UI experiences.

TECHNICAL SKILLS

AI & Prompt Engineering: Generative AI, Prompt Engineering, AI Workflow Design

Frontend: React.js, Tailwind CSS, JavaScript

Backend & Infra: Firebase Auth, Firestore, Cloud Deployment

Design & Strategy: UI/UX Thinking, Git/GitHub, Product Ideation

EDUCATION

Bachelor of Technology — CSE (Data Science) | 2023 – 2027 (Expected)

G. Pulla Reddy Engineering College, Andhra Pradesh · CGPA: 8.1 / 10

CERTIFICATIONS

- Prompt Engineering for Developers — Infosys Springboard
- Generative AI Fundamentals — Infosys Springboard
- Cloud Computing Essentials — Infosys Springboard
- GitHub & Version Control — Infosys Springboard
- AI First Software Engineering — Infosys Springboard
- Data Science — Infosys Springboard

"I don't just use AI — I build with it."
