PROFESSIONAL SUMMARY

AI-focused developer with a builder's mindset, experienced in designing and shipping production-ready web applications. Built Volt Sensei, Pokemon Draft Arena, and ResumeForge—projects spanning AI education, multiplayer gaming, and productivity tools. Passionate about combining Generative AI, modern web technologies, and user-centric design to create impactful digital experiences.

PROJECTS

Volt Sensei — AI-Powered JEE Learning Platform

- Engineered and deployed an AI-powered JEE learning platform with dynamic quizzes, XP gamification, and real-time performance feedback.
- Architected AI-generated quiz systems and immersive 3D educational models for Physics and Chemistry visualization.
- Implemented Firebase Authentication and Firestore for secure real-time user data synchronization.

Pokemon Draft Arena — Real-Time Multiplayer Draft Battle Game

- Engineered a multiplayer drafting game featuring private-room matchmaking and synchronized game-state management.
- Designed a strategic multi-round drafting system with hidden selections, team building, and battle preparation.
- Built Firebase-powered room management, match persistence, and a custom battle simulation engine.

ResumeForge — AI-Powered Resume Builder & Analyzer

- Engineered a professional resume platform featuring live resume building, editing, analysis, and export workflows.
- Developed Resume Health Report and Resume Doctor systems for actionable resume improvement recommendations.
- Implemented local PDF/DOCX/TXT parsing, privacy-focused processing, and professional export pipelines.

TECHNICAL SKILLS

AI & Prompt Engineering: Generative AI, Prompt Engineering, AI Workflow Design

Frontend: React.js, Tailwind CSS, JavaScript

Backend & Infrastructure: Firebase Auth, Firestore, Firebase Hosting, Cloud Deployment

Design & Strategy: UI/UX Thinking, Git/GitHub, Product Ideation

EDUCATION

Bachelor of Technology — CSE (Data Science)

G. Pulla Reddy Engineering College, Andhra Pradesh
2023–2027 (Expected) | CGPA: 8.1/10

CERTIFICATIONS

- Prompt Engineering for Developers — Infosys Springboard
- Generative AI Fundamentals — Infosys Springboard
- Cloud Computing Essentials — Infosys Springboard
- GitHub & Version Control — Infosys Springboard
- AI First Software Engineering — Infosys Springboard
- Data Science — Infosys Springboard

PORTFOLIO HIGHLIGHTS

- Built and deployed multiple live web applications using React and Firebase.
- Experience across AI products, multiplayer systems, resume SaaS tools, and educational platforms.
- Strong interest in Generative AI, Game Development, and Product Engineering.
